Cosmetic Conference & Exhibition

DUBAI, UAE: The 10th Dental Facial Cosmetic Conference & Exhibition will be celebrating its 10th Anniversary this year. It has been incredible to experience the growth of this conference over the past decade, to review progress and challenges in the field. Thanks to the modern technologies and fast growing evolving of the materials and techniques, cosmetic dentistry from teeth whitening, laser procedures, composite fillings, dental bonding to veneers and dental implants, cosmetic dentistry is defining a new epoch.

And we are very proud to be part of this progress for the last decade and to contribute with high-quality education.

Hope to welcome you all at the event.
