In Cooperation with the Faculty of Dentistry at the Royal College of Surgeons in Ireland

Ajman University Organized a Joint Accredited Dental Conference

In its quest to promote the Innovative Medical Environment, the College of Dentistry at Ajman University of Science & Technology (AUST) and the Faculty of Dentistry of the Royal College of Surgeons in Ireland (RCSI), in collaboration with the Dental Society of the Emirates Medical Association, have organized a multidisciplinary dental conference themed, “Advancing Excellence in Dental Care.”

The two-day event has kicked off Sunday 4th April at the Sheikh Zayed Centre for Conferences and Exhibitions, under the patronage of H.E. Dr. Saeed Abdulla Salman, AUST President. In his address read by Dr. Ahmad Ankit, AUST Vice President for External Relations and Cultural Affairs, Dr. Saeed Salman praised the achievements and Cultural Affairs, Dr. in academia, and serving the community by providing oral care to more than 100,000 patients.”

Prof. Abdul Aziz Ahmed, Chairman of AUST Innovative Medical Environment Commission welcomed the participants saying that “The conference is the fruition of the endeavours of both AUST’s IMEC and CoD, in implementation of the Reform and Development Plan, devised by the University’s higher administration.”

The College of Dentistry in Ajman University of Science and Technology has organized a tribute ceremony for Dr. Raghad Hashim, Assistant Professor and the Head of the Growth & Development Department at the College of Dentistry for her prize-winning of the best scientific research of faculty members in Arab universities on dentistry in 2009.

The research was themed the relation between children oral health and eating habits. The prize is awarded by the Union of Arab Universities in Association with the Arab Colleges of Dentistry in Beirut, Lebanon.

It is worth noting that Dr. Hashim had been awarded many prizes before, to name but a few, she came first in Al-Owais Award for Studies and Scientific Innovation in 2005 for the best research on health and medical sciences in the UAE, entitled the health and environmental condition of the children in Ajman. She also won Colgate Award after presenting her work at the International Association of Dental Research (IADR) conference held in Washington, USA in 2005. During her presence at another IADR conference in New Orleans, USA, Dr. Hashim had one of her researches been nominated for the Giddon Award in 2007.

of prominent and experienced professionals in this field. In the address of the dean of the Faculty of Dentistry at the Royal College of Surgeons in Ireland, Prof. Patrick J. Byrne expressed his thanks to Ajman University for organizing the conference and for bringing together eminent speakers and participants from around the world. Prof. Patrick, who praised the existing partnership between RCSI and AUST, briefed the participants on the objectives of the conference, saying that: “keeping up with the literature and evidence of best practice in one area of dentistry alone is onerous, but keeping up with the whole spectrum of modern dentistry may seem almost impossible. We hope that in the two days you will spend with us in Ajman University, we will be able to assist you with that task.”

Dr. Salem Abu Fannas, dean of AUST College of Dentistry welcomed AUST guests and extended his appreciation to Dr. Patrick Byrne and his team from the Royal College of Surgeons in Ireland, Prof. Malcolm Harris from the University of Central Lancaster, as well as Dr. Aisha Sultan, president of the Dental Society of the Emirates. “This conference will promote research and place our students in an international arena to mix with well established masters of Dentistry as a Science and as a Profession.” Dr. Salem said.
