Dear Colleagues,

On behalf of the Conference Organizing Committee, I am honored and delighted to welcome you to the 16th King Saud University International Dental Conference, the 27th for the Saudi Dental Society to be held on 5-7 January 2016 in Riyadh International Convention and Exhibition Center, in Riyadh, Kingdom of Saudi Arabia. I believe we have chosen a venue that guarantees a successful technical conference amid the culture and scenery of Riyadh. This year’s conference theme is “Regenerative Dentistry” which will broadly cover all dental disciplines from fundamental research to visionary applications that will highlight global dental scientific interactions and collaborations.

As always, this Conference included a diversity of topics presented by authors from different institutions and countries. This brings a plurality of interests and perspectives to a single location, therefore, I encourage you to take advantage of this great opportunity to contribute, through presentations, discussions and interactions, to the development of new innovative ideas in the dental practice, research and applied technology.

We are pleased to have invited eminent speakers worldwide to share their expertise in their respective areas of specialization, i.e. scientific and poster presentations whereby submitted abstracts were strictly screened and reviewed by the Scientific Abstract Review Committee from over 100 Abstracts to ensure that the meeting will be a major scientific event. In order to guarantee the quality of future research and new practical applications, an open discussion and hands-on workshops between experienced colleagues, young dentists and professionals is highly encouraged.

We welcome you all to an inspiring conference experience and your interaction will promote a creative exchange of ideas that is worth rewarding.

I look forward to a pleasant and memorable collaboration for the 16th King Saud University International Dental Conference, the 27th for The Saudi Dental Society in the city of Riyadh, Kingdom of Saudi Arabia.

Dr. Mohammad I. Al-Obaida
CO - Chairman, Organizing Committee
President The Saudi Dental Society
