Dubai, UAE: From 4 to 9 May 2016, the Centre for Advanced Professional Practice (CAPP) will be hosting 15 hands-on dental education courses supplementary to its 11th edition of its annual CAD/CAM and Digital Dentistry International Conference, which will be held on 6 and 7 May at the symbolic Jumeirah Beach Hotel in Dubai. In addition, the Dental Technician International Meeting will take place parallel to the conference.

About the conference
The 11th CAD/CAM and Digital Dentistry International Conference is a two-day event targeted at addressing the business and educational needs of independent dental professionals. Prior to and after the conference, hands-on courses on various multidisciplinary topics will be held.

Participants will have the opportunity to meet other dental professionals from all over the world during educational sessions led by industry experts and earn continuing education credits. Furthermore, attendees will have face-to-face business opportunities with representatives of leading dental manufacturers at the dental exhibition at Jumeirah Beach Hotel.

The conference features
- Accredited scientific dental education sessions focused on digital and aesthetic dentistry
- Accredited scientific dental technology education sessions for dental technicians
- Pre- and post-conference hands-on courses by industry experts on multidisciplinary topics
- Poster presentations
- Extensive exhibition focused on the latest digital and aesthetic dentistry technologies
- Educational sessions with industry experts
- Face-to-face appointments with suppliers of your choice
- Networking opportunities with industry peers and supplier representatives
- Unparalleled social programme.

Scientific programme presenters
This year’s scientific programme once again features prominent international speakers, including:

- Prof. Jan-Frederik Guth, Germany
- Dr. Michael Dieter, Switzerland
- Dr. Çağdaş Kılıçalı, Turkey
- Prof. Jhaid Abdallah, Lebanon
- Dr. Mario Resch, Switzerland
- Mr. Vaipach Kaufmann-Inosan, CDT, Switzerland
- Michele Temperani, CDT, Italy
- Dr. Matteo Beretta, Italy
- Dr. Nunzio Ciralli, Italy
- Dr. Guillaume Jouanny, France
- Dr. Jan Paulicx, Denmark
- Dr. TIQ Queralt, UK
- Prof. Paul Tipton, UK
- Dr. Kúlil Dinev, Bulgaria
- Dr. Eduardo Mabry, Chile
- Assoc. Prof. Joseph Sabbagh, Lebanon
- Dr. Munir Sibawi, UAE
- Alhaim Farah, CDT, Syria
- John Philipp, Canada
- Yamen Chaban, TSS, CDT, Germany
- Maffei Simone, Italy
- Christopher Adams, Denmark
- Clemens Schwerin, MDT Germany

Dental Technician International Meeting
The Dental Technician International Meeting has arisen from CAPP’s Dental Technician Sessions over the last eight years. Those were targeted not only at dental laboratory owners and dental technicians, but also at the entire dental technology profession. The Dental Technician International Meeting will cover the latest groundbreaking hot topics focused on the needs of the dental technology profession. The meeting will be held on 6 and 7 May at the Meydan Auditorium in the Jumeirah Beach Hotel conference centre. Over 200 dental technicians, clinical dental technicians, laboratory owners and other visitors are expected to attend.

Round Table Clinia Training will be hosted by the sponsors and the industry’s most respected speakers. Regardless of specialisation, the participants will enjoy and learn during the trainings. They will have a chance to attend numerous presentations split in smaller groups, having a chance to ask questions immediately and receive personal treatment from the presenters.

Who should attend?
Over 2,000 international participants interested in the fields of digital dental technologies are expected to attend the CAD/CAM and Digital Dentistry Conference in order to learn more about digital dentistry, minimally invasive treatments, digital aesthetic approaches, digital smile design and clinical experience. Interaction with industry partners will be one of the greatest benefits of the Dubai conference. The substantial opportunities for networking are aimed at bridging the gap between clinical knowledge and technical industry experience in the field of dentistry.

Participants can already take advantage of the early bird registration and special room rates at the exclusive Jumeirah Beach Hotel. Further information is available at www.cappmea.com/dcadcams and www.cappmea.com/dtim.

ROUND TABLE CLINIC TRAININGS (Company Demonstration)

ROUND TABLE CLINIC TRAININGS – 5 table clinics will operate simultaneously on 07 May from 13:30 - 18:00 with a rotation of three groups for each table. The trainings will be held in small groups (10 seats available per session) in order to have the highest impact. Outstanding Dental Technicians will present various topics of great interest to the dental technicians. Participants will have the opportunity to interact immediately and ask their personal questions of interest. The practical demonstrations will, at the same time, provide inspiration and offer means of trouble shooting.
