
7th Dental-Facial Cosmetic Int’l Conference – part of Dubai Dental Week

By Dental Tribune MEA | CAPPmea

With the 21st Century being a time where science and trade go hand in hand, it is of utmost importance to stay updated in our professional lives. With the internet opening doors to information to everyone, the dental patient has unrestricted access to global standards of dental care. The thought of success in Dentistry today is underlined by innovation and cutting edge technology as well as evidence based scientific improvements. It is a fact that the dental industry has seen a shift from being trade to being evolved as a scientific trade. With this being said, 7th Dental-Facial Cosmetic International Conference in Dubai has become the regions trendsetter when it comes to showcasing the latest evidence based scientific cases through Centre for Advanced Professional Practices’ (CAPPmea) accredited Continuing Dental Education programs alongside modern day innovations and cutting edge technologies shown by the dental manufacturers.

In the 10th year Anniversary of CAPPmea, 7th DFCIC is proud to offer an expanded partnership with eminent strategic partners such Emirates Dental Society, Saudi Dental Society, Lebanon Dental Association as well as American Academy of Implant Dentistry, Inman Aligner Academy and the International College of Dentists who all hold their annual events as part of the Dubai Dental Week.

The organizers have once again planned an unparalleled Continuing Dental Education program for November 2015. Featuring some of the most prolific educators in the field of Dentistry, delegates will have a choice of a full-day Seminar on Alignment, Bonding, Bleaching and more (Inman Aligner Symposium - 12th November), two day Scientific Conference on the latest in Dental Facial Aesthetics (7th DFCIC joint event with AAID 13-14 November), half-day seminar (ICD

Emirates Dental Society to hold its dental board election at 7th DFCIC

By EDS

Dubai, UAE: The Dental Society of the Emirates Medical Association is going to hold its dental board election to elect a new board on November 15, 2015 as part of the 7th Dental-Facial Cosmetic International Conference (15-14 November). These events will be part of the Dubai Dental Week (11-15 November 2015) which has become the largest international dental event for

– 14 November), Dental Hygienist Day on prevention and oral health (14 November) and 19 hands-on workshops covering a large number of current concepts in Aesthetic Dentistry (11-15 November).

All delegates are not only welcome to participate in the many education programs offered by CAPPmea, but also to visit the state-of-the-art trade exhibition featuring the leading dental manufacturers in the industry (15-14 November) including the likes of; Sirona – Platinum Sponsors, Inovac Vivident –Crystal Sponsor, 3M ESPE, KaVo, Oral-B, Heraeus Kulzer, KERR – Gold Sponsors, GSB – Silver Sponsor and Philips Sonicare, Denturex, invisalign, Henry Schein, Shof, Coswell, Southern Implants, VITA and Carestream – Official Sponsors. The exhibition is an important part of the 7th DFICIC experience as delegates will have the chance to interact with over 45 dental manufacturers to provide valuable feedback in order to advance the science of dentistry forward.

Highlights of DFICIC include Dr. Shankar Iyer's (Vice-President AID, USA) modern kick-start of Day 1 with Vaeotrine – Make The Perfect Dental Connection followed by a full mouth reconstruction case using CAD/CAM and Minimal Invasive Dentistry by Dr. Julian Gutierrez from Costa Rica. Delegates are advised to further look out for Prof. Dr. Markus Balenkohn, Germany lecturing on Laser Milling – Entering a New Dimension of Aesthetic Dentistry, Dr. Gaetano Villani in Volume 1 (Upper Anterior and Posterior Work in Aesthetic Dentistry on topics such as CEREC and Implants, Evidence Based Dentistry, Full Arch Implant Supported Strategies and Treatment of Inadequate Ridge Height using Tatum Ridge Repositioning.

CAPPmea is an ADA C.E.R.P. Recognized Provider of Continuing Education and the Dubai Dental week has additional accreditation in oral and maxillofacial surgery from the Health Authority Abu Dhabi and Dubai Health Authority. The main scientific program features a few international speakers from 12 countries presenting their latest clinical cases in the field of Dental Facial and Aesthetic Dentistry on topics such as Minimal Invasive Dentistry, Chairside CAD/CAM, Restorative Dentistry, Implantology, Laser, Prevention, Veneers, Crowns, Bridges, Impression, Bonding, Restoration, Propitithaxis, Alignment, Bonding, Bleaching and many more.

I am sure you will bring back some valuable tips and information that will enhance your existing implant and aesthetic practice. If you are a novice, you will get excited to incorporate implant dentistry to expand the scope of your practice. Founded in 1951, the AID is the first professional organization in the world dedicated to implant dentistry. Its membership includes general dentists, periodontists, maxillofacial surgeons, prosthodontists, Endodontists, Restorative Dentists who are interested in the field of implant dentistry.

The American Academy of Implant Dentistry (AID) stands for excellence in education, scientific development and patient care. Members who demonstrate the highest standards in implantology find the AID to be the organization which supports their clinical and professional interest, as well as recognition for their achievements. The Academy’s mission is simple: to advance the science and practice of implant dentistry through education, research and support and to serve as the credentialing standard for implant dentistry for the benefit of mankind. The Academy provides bona fide credentialing in implant dentistry through the Associate Fellow and Fellow membership examinations. The Associate Fellow and Fellow credentials are recognized by numerous state boards.

I hope to personally greet you at the conference and welcome you to be part of our International Community. You will find an atmosphere of camaraderie, warmth and friendliness that will entice you to be there.

Iman Aligner Academy proudly holds its Annual Symposium with 7th Dental Facial Cosmetic Int’l Conference

By Dr. Shankar Iyer, I,SA

The first global Conference of the AID was held in New Delhi in 2010 along with the World Congress of Oral Implantology. Four years later the AID will hold its 4th Global Conference with the 7th Dental Facial Cosmetic International Conference at Jumeirah Beach Hotel Dubai 12-15 November 2015. World Class Faculty and experts will present the new concepts to explore the controversies surrounding dental implant therapy. Which is the best method to grow bone vertically?

Evidence Based Implant Dentistry, The Full arch Implant Supported Strategy, Cerec & Dental Implants - 21st Century Dentistry and several other issues will be presented at this conference. I am delighted to work with Dr. Ninette Banon who is the Secretary for the Congress and has made some significant strides in educating AID MaxiCourse participants in the UAE over the last decade.

The AID will be bringing renowned International speakers: Dr. Jaime Lozada, Dr. Cheryl Pearson, Dr. Roderick Steward, Dr. Stuart-Orton Jones and many more to allow experienced Implant Aligner users to treat more complex cases with confidence. We recommend that dentists have completed at least 10 cases to make sure they benefit from this training. A Certificate course on 15th November is the 2015 installment of the highly rated update course. A day packed with the latest tips and techniques to boost your Implant Aligner treatments.

We look forward to welcoming all delegates to our Annual Symposium.

By Dr. Andy Wallace, UK speaking on “Creating the Dreamesthetic Practices and Why every dentist should offer simple orthodontics.”

The IAA Symposium will additionally cover Dental Photography (Dr. Richard Field, UK), 30 Years of Odontology (Dr. Erik Svendsrud, Norway), Alignment, Bonding and Bleaching (Dr. Charlotte Nyby, Denmark), Prof. Ross Holbrook, UK will conclude the promising and highly anticipated IAA 2015 Symposium with Avoiding orthodontic pitfalls as a GDP.

With an expanded program, two dedicated hands-on courses and an update course will keep delegates busy throughout the Dubai Dental week scheduled between 11-15 November 2015. The Iman Aligner Certification Course designed to teach attendees how to use the Iman Aligner in order to be a certified user will take place on 15 November 2015. All aspects of the treatment will be covered from case evaluation to fitting and then retention, so that attendees will be able to handle simple to moderate complex cases immediately.

The Advanced Course also scheduled for 15 November will be run by Dr. Tif Qureshi, and is designed to give delegates how to use the Inman Aligner in order to be a certified user will take place on 15 November 2015. All aspects of the treatment will be covered from case evaluation to fitting and then retention, so that attendees will be able to handle simple to moderate complex cases immediately.
